### Toilet Repair and Installation

Do you need to fix a running toilet? Replace a toilet part? Or install a new toilet? Pro Power Rooter can help! We're the most affordable and trusted plumbing service in Colorado springs and have been in business since 1991. Whether you are in need of a small repair or would like to replace your existing toilet, our experienced plumbing technicians are up to the task. We are experienced with the ins and outs of toilet mechanics and can handle any problem. Some toilet repairs can be simple such as unplugging a basic clog, while others are more complex. A professional technician from Pro Power Rooter will have the knowledge, skills and tools to help get your toilet functioning normal again in no time – no matter how hard the problem is!

### Toilet Installation or Toilet Repair

Toilet installation can be a better choice than a toilet repair most of the time. Our plumbing technicians can repair almost any toilet, but just like anything else, there comes a time when it makes better sense to replace an old toilet rather than repair it, (performance and water savings). You don't have to wait in till you remodel your bathroom to enjoy the benefits of a new toilet. We can install all of the major brand toilets and can help you pick out your new toilet.

### Toilet Installation

Thinking of installing a low-flow toilet for your Colorado springs home? We service the entire Colorado springs metro and El Paso county area and everywhere in between. We can help you select and install an energy-efficient model. For more information regarding the installation or repair of toilets, just call us today!

### Toilet Repair Emergency

If your toilet is overflowing or you are experiencing another plumbing emergency, we offer fast emergency service. Give us a call at **(719) 331-4071** to inquire about our availability. we are also available after hours and on the weekends and holidays for emergencies. Don't delay – call now!
